

Code-Layout, Readability and Reusability

Date	23/09/2026
Team ID	SWTID-2026-3089
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Institution	Arignar Anna College Code: MSU 302
Team Members	Aldhaf F (Leader), Bhuvanasri S, Dhanisha Muhi N S, Divya Lakshmi K, Dharshini P
Maximum Marks	5 Marks

Code Layout Checklist

This document evaluates the quality, modularity, and structure of the implemented ServiceNow Flow Designer automation:

S.No	Code Quality Parameter	Description	Followed (Yes/No/Partial)	Remarks
1	Consistent Indentation	Clean logical block organization in Flow Designer steps	Yes	Sequential action tree structure
2	Proper File Structure	Flow, catalog item, and tasks organized under Global scope	Yes	Standard ServiceNow naming conventions
3	Meaningful Variable Names	Flow inputs and data pills clearly labeled (Requested Item Record)	Yes	Self-describing ServiceNow data pills
4	Function / Method Names	Actions explicitly named: 'Create Catalog Task', 'Service Catalog Trigger'	Yes	Clear descriptive process action titles

5	Code Comments	Annotation on Flow properties and action descriptions	Yes	Detailed intent in flow summary & notes
6	Modular Design	Flow decoupled from catalog definition; can be assigned to multiple items	Yes	Reusable across IT hardware catalog
7	No Redundant Code	Zero legacy workflows; direct low-code Flow Designer actions	Yes	Clean execution path with no dead logic
8	Error Handling	Built-in execution engine handles failed task creations with rollback	Yes	Managed by ServiceNow Process Engine

Reusable Components / Modules

S.No	Component / Module Name	Language / Technology	Where Reused	Reusability Level
1	Create Catalog Task Action Block	ServiceNow Flow Designer	Standard Desktop and Peripheral Catalog items	High
2	Service Catalog Approval Trigger	Flow Designer Event Listener	All employee hardware and software service items	High
3	Hardware Assignment Group Router	ITSM Routing Engine	Asset configuration, warranty replacements, staging	High
4	Requested Item Data Pill Transformer	ServiceNow Data Binding	Standard ordering workflows across ITSM catalog	Medium

Overall Code Quality Assessment

Aspect	Rating (1-5)	Comments
Code Layout & Structure	5 / 5	Clean, event-driven Flow Designer step hierarchy

Readability	5 / 5	Intuitive visual flow logic understandable by both developers and admins
Reusability	5 / 5	Generic action parameters allow broad reuse across ITSM catalog
Documentation / Comments	4.8 / 5	Comprehensive flow properties and action annotations
Overall Score	4.9 / 5	Meets highest enterprise low-code development standards
