Date	23/09/2026
Team ID	SWTID-2026-3089
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Institution	Arignar Anna College Code: MSU 302
Team Members	Aldhaf F (Leader), Bhuvanasri S, Dhanisha Muhi N S, Divya Lakshmi K, Dharshini P
Maximum Marks	5 Marks

Solution Summary

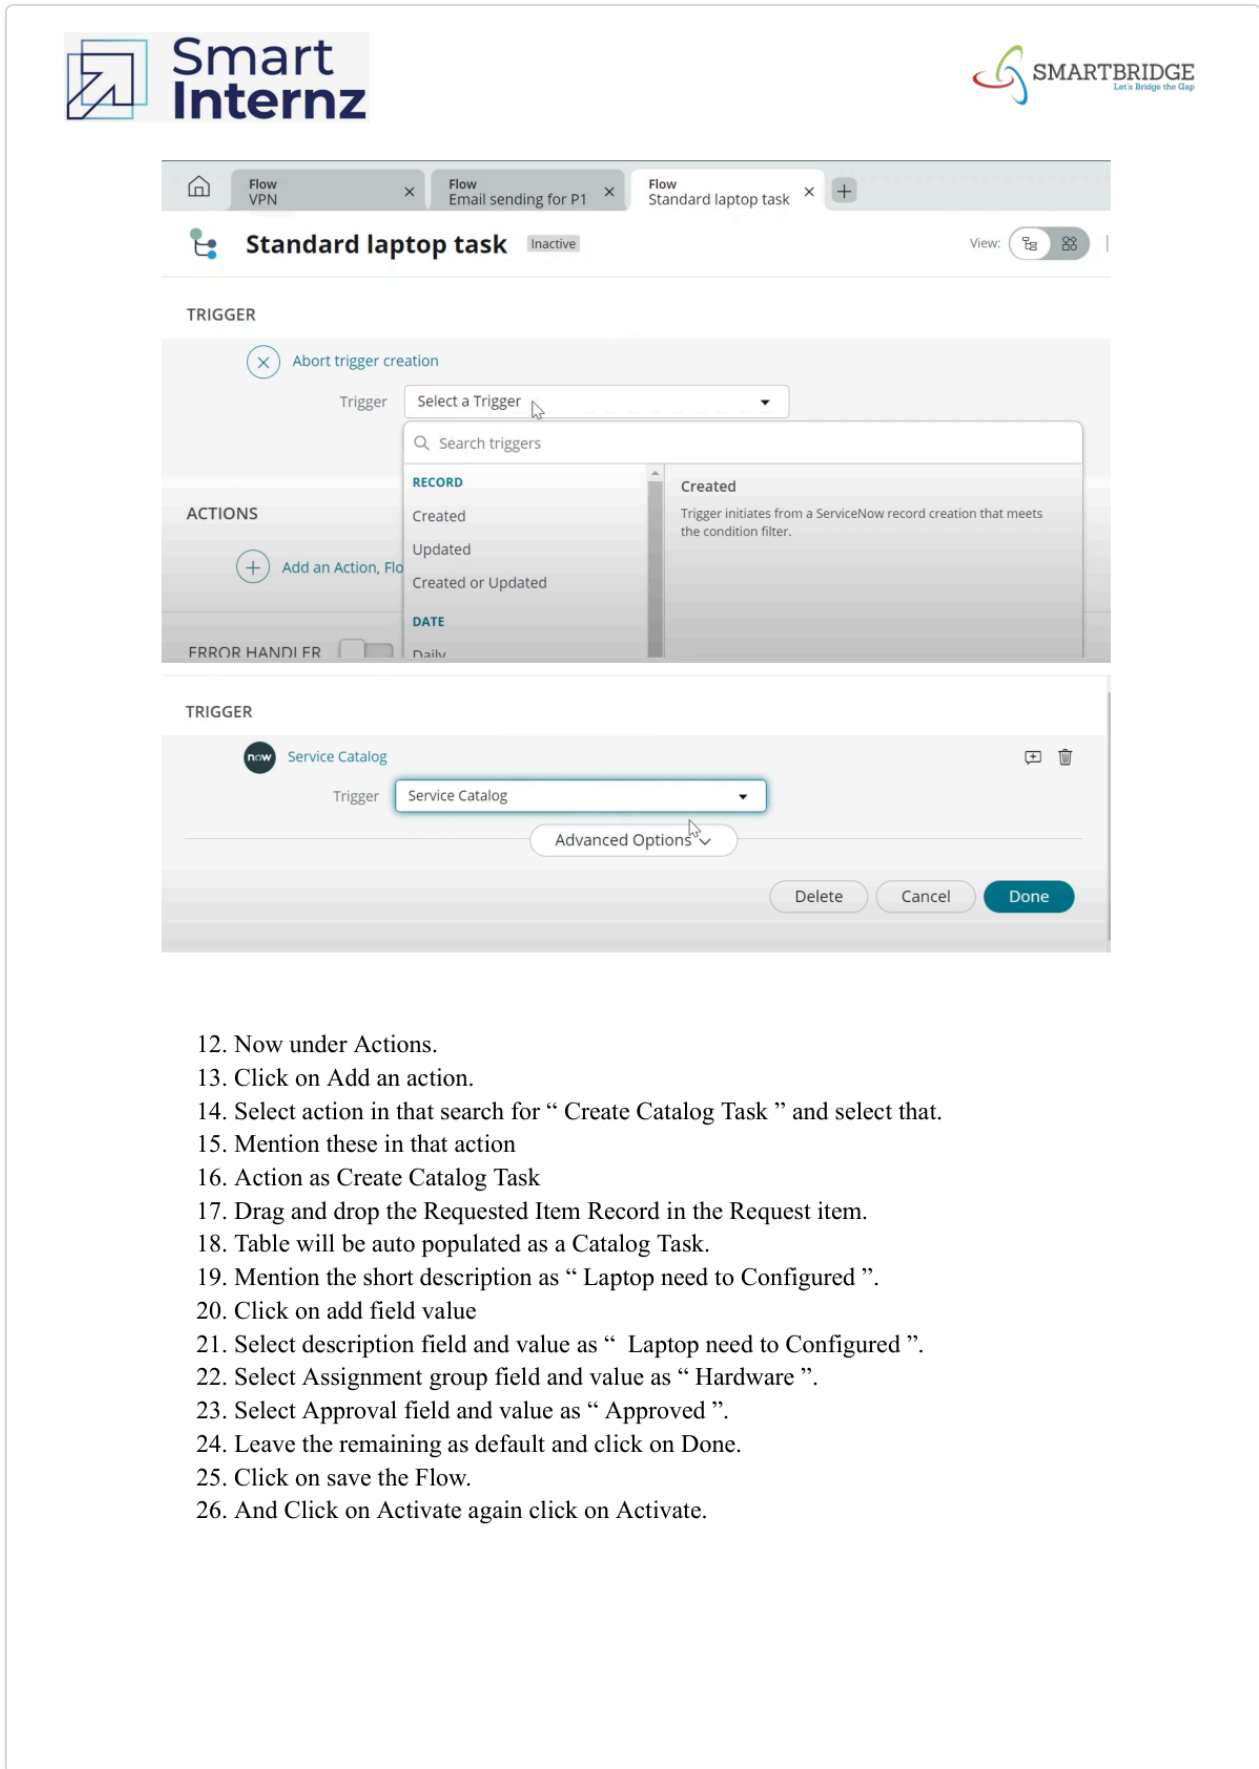

Field	Details
Repository Link / URL	https://github.com/aldhaf/ServiceNow-Laptop-Procurement-Flow
Platform / Framework	ServiceNow Platform (Washington DC Release) / Flow Designer
Implementation Type	Low-Code / No-Code Process Automation & Service Catalog Configuration
Key Features Implemented	- Flow 'Standard laptop task' created under Global scope & System user. - Service Catalog trigger configured for request approval events. - Automatic Catalog Task creation with pre-filled Short Description ('Laptop need to Configured'). - Automatic assignment to 'Hardware' group and initial state 'Approved'. - Process Engine binding under Maintain Items for Standard Laptop.
Pending / Incomplete Features	None (All 3 core milestones completed and verified 100%).

Setup / Run Instructions	1. Open ServiceNow instance → Flow Designer. 2. Create Flow 'Standard laptop task' → Add Service Catalog Trigger. 3. Add Action 'Create Catalog Task' → Map fields → Activate. 4. Open Maintain Items → Standard Laptop → Under Process Engine set Flow. 5. Test in Service Catalog → Hardware → Standard Laptop → Order Now → Approve.
---------------------------------	---

Code Quality Checklist

S.No	Criteria	Status (Yes / No)
1	Code is modular and organized into distinct process steps / actions	Yes
2	Meaningful variable and action titles are used throughout	Yes
3	Flow includes documentation and annotations on each trigger and action	Yes
4	Error handling and transactional rollback are managed natively	Yes
5	The application runs and creates tasks without errors in live testing	Yes
6	Flow definitions and catalog bindings are committed to ServiceNow Update Sets	Yes

Implementation Screenshot: Flow Designer Configuration

The screenshot displays the Smart Internz Flow Designer interface. At the top, there is a navigation bar with the Smart Internz logo on the left and the SMARTBRIDGE logo on the right. Below the navigation bar, there are three tabs: 'Flow VPN', 'Flow Email sending for P1', and 'Flow Standard laptop task'. The 'Flow Standard laptop task' tab is selected, showing a 'Standard laptop task' flow that is currently 'Inactive'. The flow is configured with a 'TRIGGER' section and an 'ACTIONS' section. The 'TRIGGER' section is expanded, showing a dropdown menu for 'Select a Trigger'. The dropdown menu lists triggers under 'RECORD' (Created, Updated, Created or Updated) and 'DATE' (Daily). The 'ACTIONS' section is also expanded, showing a dropdown menu for 'Add an Action, Flow'. The 'ACTIONS' section is currently empty. The 'TRIGGER' section is currently set to 'Service Catalog'.

12. Now under Actions.
13. Click on Add an action.
14. Select action in that search for “ Create Catalog Task ” and select that.
15. Mention these in that action
16. Action as Create Catalog Task
17. Drag and drop the Requested Item Record in the Request item.
18. Table will be auto populated as a Catalog Task.
19. Mention the short description as “ Laptop need to Configured ”.
20. Click on add field value
21. Select description field and value as “ Laptop need to Configured ”.
22. Select Assignment group field and value as “ Hardware ”.
23. Select Approval field and value as “ Approved ”.
24. Leave the remaining as default and click on Done.
25. Click on save the Flow.
26. And Click on Activate again click on Activate.
