

Scalability & Future Plan

Date	23/09/2026
Team ID	SWTID-2026-3089
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Institution	Arignar Anna College Code: MSU 302
Team Members	Aldhaf F (Leader), Bhuvanasri S, Dhanisha Muhi N S, Divya Lakshmi K, Dharshini P
Maximum Marks	1 Mark

Current System Limitations

S.No	Limitation	Impact	Priority to Address
1	Limited to Standard Laptop catalog item	Other hardware items (desktops, monitors) still require manual tasks	High
2	Single-tier approval model	High-spec devices may require secondary departmental cost approvals	Medium
3	Basic email notifications	Technicians must check ServiceNow queue rather than receiving instant Teams alerts	Medium

Scalability Plan

S.No	Scalability Aspect	Current State	Proposed Upgrade / Solution
1	User Load	Single department prototype	Enterprise-wide rollout supporting 10,000+ employees
2	Hardware Catalog Scope	Standard Laptop item only	Expand to Desktops, MacBooks, Tablets, and Accessories

3	Performance & Throughput	Single synchronous trigger	Parallel asynchronous sub-flows via IntegrationHub
4	Security & Governance	Role-based ACLs in Global scope	Scoped Application architecture with encrypted credentials

Future Roadmap

Phase	Planned Feature / Enhancement	Target Timeline	Expected Impact
Phase 2	Extend flow to all IT hardware catalog items & asset bundles	Q4 2026	100% automated hardware catalog fulfillment
Phase 3	Microsoft Teams & Slack integration for instant technician alerts	Q1 2027	Further 40% reduction in technician pickup latency
Phase 4	Predictive asset inventory tracking with automated restocking triggers	Q2 2027	Zero out-of-stock incidents for new laptop orders
